Instruction
Hardware Engineering

No. LMS 1-1 (SUPPL)

SUBJECT Identification Marking-Program Requirement

APPROVED BY Manager, Hardware Engineering

STATUS Maintenance Revision

PURPOSE Specify program requirements for identification plate entries in accordance with **LMS 1-1**. Provide Manufacturing personnel with detailed information to complete entries on identification plates.

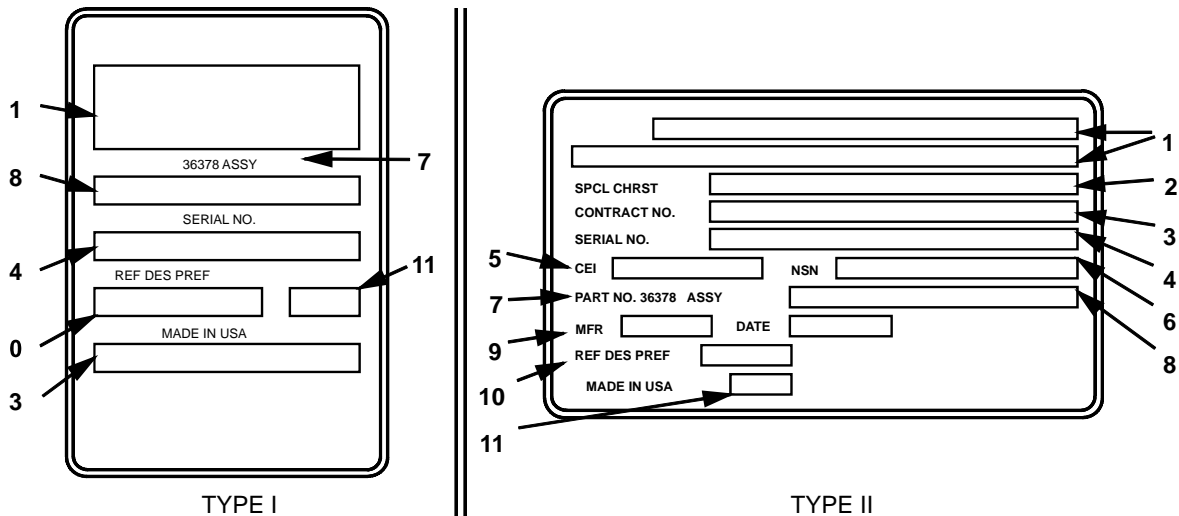

AFFECTED FUNCTIONS Hardware Engineering
Manufacturing

REFERENCES **LMS 1-1** Identification Marking, Hardware
MIL-STD-130 Identification Marking of US Military Property

DEFINITIONS For applicable definitions, refer to **LMS 1-1**.

INSTRUCTION

1. Requirements
 - 1.1 General. The engineering drawing shall specify the location of the identification plate. The preferred method of entry shall be by typewriter or lettering device.
 - 1.2 Data entries. Refer to Figure 1 and Table I for the pertinent data to be entered into the appropriate locations on the identification plate. Items listed as “No Entry” in the table shall be left blank on the identification plate.
 - a. MFR column. The following asterisk explanations are for this column.
 - (1) * - For Government Design Activity (GDA) drawings, enter 98747 in the CAGE Code block (item 7 of Figure 1) preceding the assembly part number entry. When the engineering drawing CAGE Code is 36378, 53988, 63082, 1PQF4, 1LAK9, 1P1N2 or 2AA65 leave the MFR block blank.
 - (2) ** - For items manufactured by KV or DISA, the EPC shall enter its CAGE Code number.

CAGE Code 36378 (prior Binghamton) Identification Plate Shown for
Illustration Purposes Only

1. Enter the item's name as specified on the engineering drawing.
2. Enter any special characteristics only if specified on the engineering drawing.
3. Enter the current contract number or purchase order number.
4. Enter the serial number that is specified on the factory work order for that assembly except for the "top trainer." For the top trainer serial number, refer to Table I.
5. Refer to Table I for the CEI (Configuration End Item) entry.
6. Refer to Table I for the NSN (National/NATO Stock Number) entry.
7. The CAGE Code Number becomes 1P1N2 for Florida, 1PQF4 for Arlington.
8. Enter the item's part number as specified on the engineering drawing.
9. Enter the CAGE Code as shown on the engineering drawing unless otherwise specified in Table I.
10. If a REF DES PREF entry is required, it shall be applied as specified on the engineering drawing.
11. Enter the ownership of the device as specified in Table I.
